

Skedway

Skedway transforms work environments into living organisms.

Technology that enhances space management, data analysis and insight generation.

With Skedway technology, you will:

- Visualize, integrate and manage all shared spaces and service assets in one place.
- Collect real insights for real decisions through intelligent dashboards.
- Understand and anticipate employee behavior by monitoring space usage in real time.
- Use advanced Computer Vision and proprietary Skedway® IoT devices to monitor assets with precision and reliability.
- Reduce costs, save time and improve the work experience.
- Resize and redesign space to better meet demand based on data insights.
